Participants can look forward to a retreat setting focused on deepening our relationship with the Mystical Heart. He will use the teachings of the Dalai Lama, Mother Teresa, Hazrat Inayat Khan, Teilhard de Chardin and the insights of the new cosmology emphasizing their central focus on the heart.

Atum will offer teachings as well as spiritual practices and creative exercises on the following :
The deep heart centered in peace, the living heart that radiates and gives energy,
sacred heart as the temple of the divine, the compassionate heart as the unity of human
suffering,
the heart of mystery as the way of mystical knowing, and the ecstatic heart- the holy fire of love.
